

## Foxfire 5000 WB Water Repellent Concrete + Masonry + Stone

Foxfire 5000WB is a single-component, VOC-compliant, penetrating water repellent containing a proprietary modified silane/siloxane. This water-based product penetrates most masonry and concrete pores and capillaries up to a quarter-inch or more depending on surface porosity and moisture content at the time of application. Foxfire 5000WB is low-odor and environmentally friendly, with a VOC content of less than 37 g/L.

### PRODUCT ATTRIBUTES:

- Water-based, modified silane/siloxane formula
- For use on concrete, masonry, stone, tile
- Penetrates up to ¼"
- Will not affect the surface profile
- Low odor
- Low VOC
- Use on vertical or horizontal surfaces
- Mildew and fungus resistant
- Breathable vapor emission blocker

**THEORETICAL COVERAGE RATE:** 50-200 SF/Gal depending on porosity of the surface. A test sample is recommended to measure actual consumption. Shake/mix well before using. Do not dilute or alter. Protect from freezing. Surface should be free of standing water, dirt, dust, oils and other contaminants.

### WHERE TO APPLY:

- Concrete
- Brick
- Masonry
- Porous Tile
- Natural Stone
- Flagstone
- Travertine
- Interlocking Pavers
- Pre-cast Concrete Pavers
