

TORCH RT

Works down to ZERO degrees!
Quick Delivery from GMCO Denver Facility
Ease of scheduling through one point of contact

HIGH PURITY

Solar Salt Product:
99.9% Pure
3%-6% Purer than Mined Product

MORE ACTIVE CHLORIDES

More Active Chlorides
Less Insolubles
Better Value for Price

UNIQUELY COLORED

Natural Color does not Leach
Dissipates After Snow Event
Thermal Energy can be Absorbed

ALL NATURAL

3% Naturally Colored Minerals
Liquid MgCl² Treated
YPS Added for Anti-Caking

ENHANCED WITH MgCl²

Lowers Freeze Point
Reaction Speeds up Melting
Goes into Brine Faster
Less Product Loss

Thoughtfulness has been the driving factor behind the design of Torch RT. Careful consideration of customer needs, materials, and the many variables associated with deicing operations led to the creation and subsequent manufacturing of the best performing deicing granules available. In order to perform better than the competition, GMCO has meticulously sought out the highest quality ingredients and combined them to create Torch RT.
